Project Name: Community-based Orphan Care, Protection and Empowerment (COPE)

Goal: To reduce the socioeconomic impact of HIV/AIDS on orphans and vulnerable children (OVC) and their caregivers in the Dodoma region

Objectives:

1. Enhanced community capacity to coordinate care and support services for OVC and caregivers
2. Increased access to life skills training, peer education and psychosocial care and support to OVC and their families
3. Increased access to educational support services to OVC
4. Increased access to health care and nutritional support to OVC
5. Increased access to income generation opportunities to OVC and caregivers

Activities:

1. Strengthening families' capacity to cope with their problems through coordinating and expanding social services for OVC, including health care, nutritional and psychosocial support and the provision of school fees for OVC. This is accomplished through the creation of multicultural district level child forums and community level orphan care committees which work with families and communities to identify and deliver services to OVC and caregivers.
2. Increasing capacity of children and young people to meet their own needs through the formation of COPE clubs in project communities to provide life skills training, peer education in HIV prevention and psychosocial support to OVC. COPE also provides caregivers with training; in-kind grants and technical assistance for income-generating projects that expand household economic resources to care for their needs.
